PROFILE SUMMARY

Undergraduate Information Systems student at Gunadarma University with GPA 3.90/4.00, possessing strong interests and deep expertise in Database Administration (Oracle), System Administration (Linux), and Frontend Web Development. I bridge the gap between building intuitive digital solutions and managing robust backend infrastructures. Experienced in server installation, database management, system automation (shell scripting), and High Availability implementation. Capable of adapting to new technologies and experienced in handling complex technical troubleshooting.

EDUCATION

Gunadarma University Sept 2024 - Present
Information Systems (S1) | GPA: 3.90 / 4.00

PROFESSIONAL EXPERIENCE

UGPreneurs Aug 2025 - Nov 2025
Logistic and Tools Division | Aug 2025 - Nov 2025

- Handled all logistics needs for Workshop P2MW Series 3, organized by UGPreneurs. Responsible for coordinating equipment, checking room availability, and ensuring everything was set before the event started.
- Monitored the event both on Zoom and on-screen for offline participants to make sure the experience was smooth on both ends. Also acted as the go-to person for on-the-spot problem solving whenever equipment broke down or ran into technical errors.
- Handled all logistics needs for Workshop P2MW Series 2, organized by UGPreneurs. Responsible for coordinating equipment, checking room availability, and making sure everything was set and ready before the event kicked off.
- Also acted as the go-to person when things didn't go as planned, from broken equipment to technical errors, stepping in quickly to minimize disruption and keep the event running smoothly.

Google Developer Groups on Campus (GDGoC) 2025
Hustler

- Designed innovative ideas for an adaptive digital education platform and pitched to judges/investors.
- Collaborated with the technical team to map development workflow and provide solutions when facing system constraints.

TechnoFair Mar 2025 - Jul 2025
Event Division and Master of Ceremonies | Mar 2025 - Jul 2025

- Served as the full event host for Technofair 12.0, a large-scale technology event organized by BEM FIKTI Universitas Gunadarma. Responsible for hosting the entire event from start to finish, keeping the energy up, managing the flow between sessions, and making sure the audience stayed engaged throughout.
- Worked alongside the speaker during sessions at Technofair 12.0, organized by BEM FIKTI Universitas Gunadarma. Main responsibility was making sure participants could follow along without any friction, helping troubleshoot technical issues on the spot so the session flow stayed on track.
- Worked alongside speakers during sessions, helping participants follow along smoothly and troubleshooting technical issues on the spot to keep sessions on track.

ACADEMIC & TECHNICAL PROJECTS

Oracle Database 19c Administration & High Availability Labs Mar 2026 - Present
Independent Project, Architected and documented a comprehensive hands-on laboratory environment for Oracle Database 19c Enterprise Edition. Published as an open-source repository on GitHub: "naufalii/Database-Administration-Labs - My Journey to becoming a Database Administrator" (github.com/naufalii/Database-Administration-Labs).

- Performed installation and configuration of Oracle 19c database environment on Linux operating system from the ground up, including troubleshooting network architecture and permission issues.
- Implemented Disaster Recovery (DR) and High Availability (HA) architecture using Oracle Data Guard.
- Successfully configured and executed Role Transitions on the database, including Switchover, Switchback, and Failover simulations between Primary and Standby Database to ensure system continuity without data loss.
- Applied advanced Shell Scripting to automate backup processes, system maintenance, and recovery using RMAN (Recovery Manager).

LICENSES & CERTIFICATIONS

- Build a Free Website with WordPress, Coursera (2025).
- The AI Ignition Training: From Basics to Breakthroughs in AI, KUMPUL (2025).
- FIKTI Learning 2025 Bootcamp "Exploring the Data Universe: Hands-On Learning for Beginners", BEM FIKTI UG (2025).
- Master of Ceremony in Workshop TechnoFair 12.0, BEM FIKTI UG (2025).
- Bootcamp Excel, Zennit.id (2024).

CORE SKILLS

Database & SysAdmin: Oracle 19c, Oracle SQL Developer, Linux, Data Guard (HA/DR), Switchover/Failover, RMAN Backup, Shell Scripting, SQL Queries

Web Development: JavaScript, React JS, Tailwind CSS, HTML/CSS, WordPress, Content Management Systems (CMS)

Soft Skills & Tools: Troubleshooting, Problem Solving, Public Speaking, Microsoft Excel, Microsoft Office, Time Management, Team Coordination, Kerja Tim, Adaptasi

LANGUAGES

Indonesian (Native) | English (Professional)
